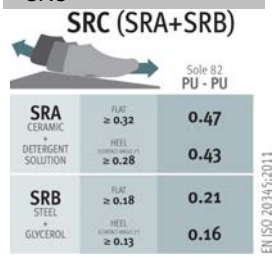
Anti-Perforation	ZERO (k) ANTIPERFORATION
Size	36-48
Weight gr.	590

Working Enviroment

Finishing-off building, Logistics and Light Industry, Components and Automotive.

SRC



Plus

Support made of rigid plastic material. It stabilizes the heel bone, the instep and tarsal joints, without altering energy absorption. A support for the natural movement of the foot; it provides comfort and greater stability.

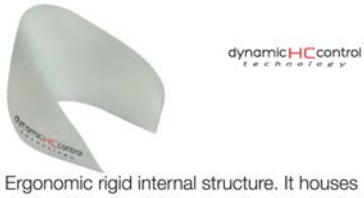
Features

Antistatic

"Classe 3"

ESD footwear with high level of electrostatic dissipation. Electrical isolation between 0.1 and 100 MΩ with relative humidity of 50%.

Plus



Ergonomic rigid internal structure. It houses the heel into the right seat, adjusting the foot support and control of the ankle sideways movements. It keeps the foot tight to the shoe, allowing the perfect fit.
